RAVENOL RNF SAE 0W-20 is suitable for use in petrol and diesel engines with and without a particle filter and exhaust gas catalytic converter and in engines according to the latest EURO 6d-Temp standard. The viscosity range SAE 0W-20 ensures a reliable cold start at low outside temperatures and full lubricity at high operating temperatures. Frictional losses and wear are reduced.

By significantly reducing fuel consumption, **RAVENOL RNF SAE 0W-20** helps to protect the environment by reducing emissions.

Extended oil change intervals according to the manufacturer's instructions.

Application Note

RAVENOL RNF SAE 0W-20 is suitable for all petrol engines, diesel engines without DPF (Diesel Particulate Filter), diesel engines with DPF from EURO 6d-Temp by RENAULT and Dacia as well as for diesel engines with DPF, if an engine oil according to ACEA C5-16 required.

RAVENOL RNF SAE 0W-20 can be used universally in all petrol and diesel engines with and without turbocharging. It can also be used for the latest EURO 6d engines.

The oil change intervals according to the manufacturer's instructions must be observed.

Characteristics

- low content of ash-forming components (sulfate ash, phosphorus and sulfur)
- specific additive technology for optimal lubrication
- extremely high aging resistance, durability and robustness
- excellent cleaning properties
- Fuel savings
